DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7 November 2006 has been entered.

The Examiner would like to point out the change of examiner in this case and apologizes for any inconvenience as a result of this.

Claim Status

Claims 1-14 remain pending and are ready for examination.

Claims 15-27 were indicated as being allowable and remain allowable as noted below.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this Examiner's amendment was given in a telephone interview with Derek Westberg on 5 January 2007.

The application has been amended as follows:

With respect to the claims dated 7 November 2006,

- Amend claim 1 as follows:
 - Line 15: Replace "a performance constraint" with "the performance requirement".
- Amend claim 2 as follows:
 - Line 2: Replace "constraint" with "requirement".

Allowable Subject Matter

With respect to amendments submitted 7 November 2006, claims 1-27 are allowed.

The following is an Examiner's statement of reasons for allowance: the prior art made of record fails to teach the combination including the limitations of:

(Claim 1) "...determining the binary variables in the first subset that may be rounded down without violating the performance requirement, thereby forming the second subset ...";

(Claim 8) "...determining the binary variables in the first subset that may be rounded down without violating the performance requirement, thereby forming the second subset ...";

(Claim 15) "...determining the binary variables in the first subset that may be rounded down without violating the performance constraint, thereby forming the second subset ...";

(Claim 21) "...the integer program modeling a data placement problem which seeks to minimize a cost of placing data objects onto nodes of a distributed storage

system while meeting a performance requirement for a workload... ..determining the binary variables in the first subset that may be rounded down without violating the performance constraint, thereby forming the second subset ...”;

As dependent claims **2-7, 9-14, 16-20, and 22-27** depend from an allowable base claim; they are at least allowable for the same reasons as noted *supra*.

The prior art made of record neither anticipates nor renders obvious the above-recited combinations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew Bradley whose telephone number is (571) 272-8575. The examiner can normally be reached on 6:30-3:00 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Donald A. Sparks can be reached on (571) 272-4201. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
